By: Jade S.

Cultural dance assignment

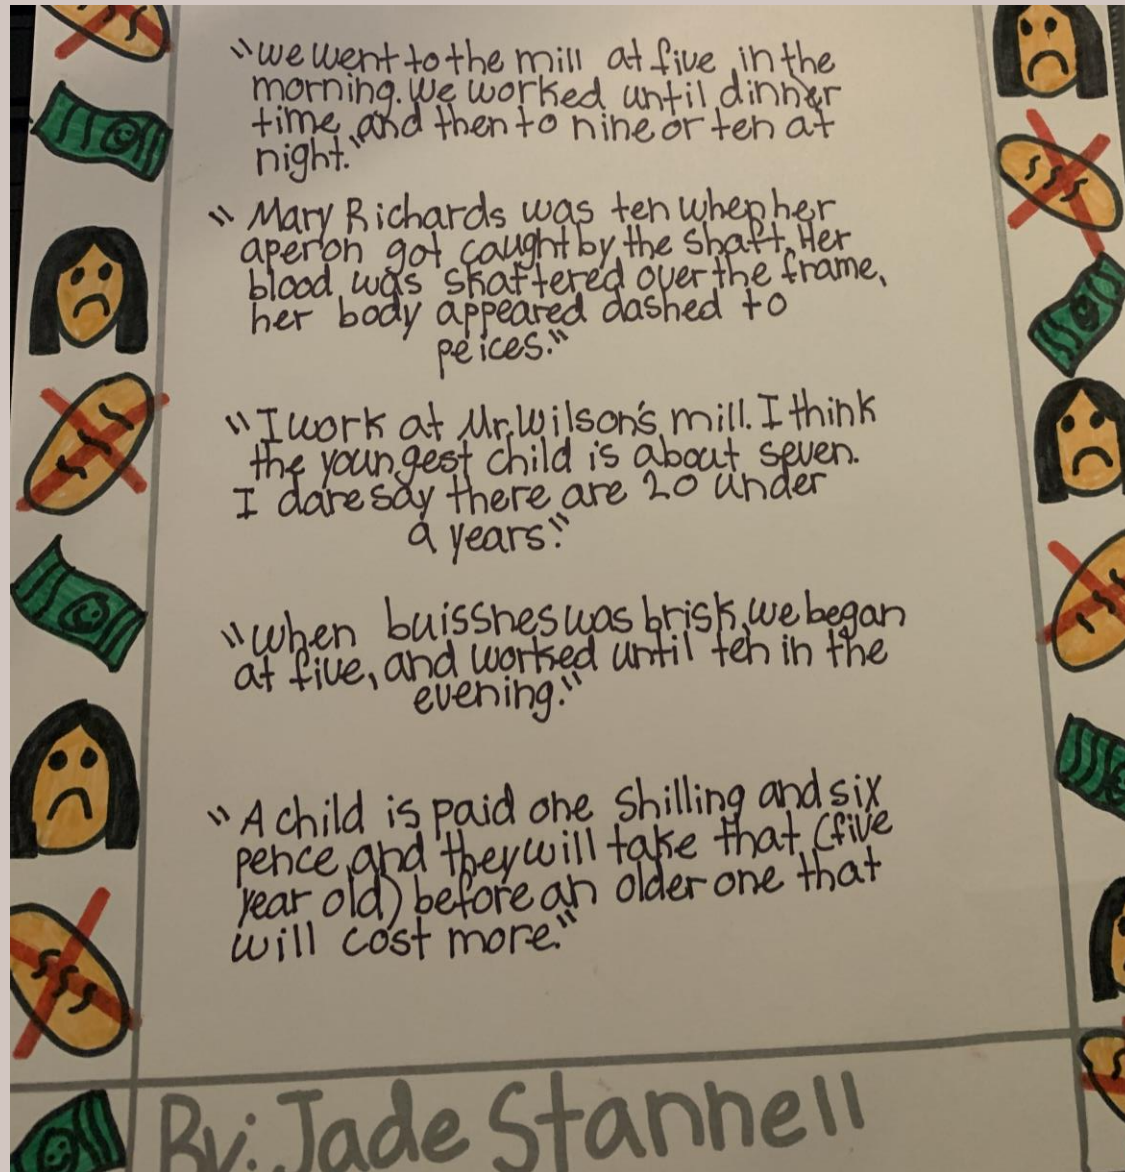

- This project I had to do for dance this term. I loved doing this project because I love dance and learning about other cultures. I did my project on hawaiian hula dancing because I am fascinated by it and wanted to learn more about it. For this project I used critical thinking to collect my information and analyze it correctly. I also think this project correlates to prototyping because I took my information from other sources and changed it up, in respect to digital media.

HULA DANCING IMPORTANCE/ HISTORY

- Hawaiian hula dancing traditionally originated as religious practice, and gained popularity in the 1900 century.
- Hula dancing was created to entertain the chiefs, and the dances often portrayed a story, such as an element of nature.
- Since hula dancing was so sacred, mistakes were dangerous. If a dancer made a mistake it meant that bad things will happen and it is very bad luck.
- Hula dancing was created on the Hawaiian islands, and the full traditional name is Hula Kahiko.
- The dances were often performed in ceremony's, to honor the gods and praise the chiefs.

Child labor quotes poster

- I did this project in social studies in first term. Because we were studying the industrial period time, we did some projects on child labor during that time. I took quotes from different articles of people talking about their lives. I have always been interested in learning about child labor, so I did enjoy this project. I think I used positive personal and cultural identity for this project because I can tell what is important to me. I think I also used the sharing core competency because I identified different design goals and had to share this with the class. I enjoyed this project.

Homelessness english poem

"I can help you" I said,
Head high above the rest

This poor woman's been through so much
A child on the way
It's just too much how some parents
Just throw their kids away

After high school she lost her job
Couldn't afford college
She was helpless and turned to drugs
Didn't have much knowledge

"I have to do something" I said,
I did all I could
Volunteering, foodbank, all that stuff
Made me feel good

- I wrote this ballad poem in english about something that has always been very important to me. Homelessness is a very big issue in our society so that's why I thought that would be a good subject to write my ballad on. I definitely used the sharing core competency in this project because I explained how the ideas contributed to our community and environment with my ending, and gave people ideas and resources to help. I also used personal awareness and responsibility to advocate what I believe in and I take the initiative to inform myself and others about the issues around us. I really enjoyed this project because it is very important to me.
