

English nine presentation final

By Milad A.

Creative Thinking Profile

I embrace failures and mistakes as part of the creative process and use constraints to encourage me to think about issues and problems in new ways by working on my struggles and improving them to perfect and recognizing and understanding my mistakes and failures.

Evidence: At first I didn't have well writing skills and would use unnecessary words, get off topic, and lack of vocabulary in my writing but, I did many quizzes on my struggles and I often got help from my teacher which helped me improve my writing a lot.

Social Responsibility Profile

- I can identify how my actions and the actions of others affect my community and the natural environment and how we can work to make positive change by treating others the same way I would like to be treated.
- For example: My study buddy was away and missed some assignments and I spent some time after school explaining the work and helping him understand the concept. I also shared some of my strategies that I used on the assignment. In the time following I was away for an assignment and he explained the work thoroughly and helped me understand it which helped me with completing my assignment well.

Positive Personal & Cultural Identity Profile

I am able to identify different groups that I belong to and have pride in who I am.

- I can quickly adapt to my new group or environment and identify the strengths and struggles within my group members.
- Then I can recognize my role and where I belong in the group and I have pride in myself for that.

Examples:

- There was a group pop quiz in our English class where the girls group was against the boys group. I found my responsibility and role quickly in the group and assigned my group members to responsibilities that match their strengths and struggles.

Critical Thinking Profile

I can analyze evidence (information) from different perspectives

- I can put myself in other shoes and understand concepts from different perspectives.

Evidence:

- For the writing final essay I focused on how place impacts identity and I compared myself to Arnold from *The True Absolute Diary Of a Part Time Indian* by writing from Arnold's perspective. I sometimes answer questions in class about characters in this book and I would almost always put myself in their shoes/perspective and answer the questions.

Communication Profile

○ I can ask and answer direct questions about topics I study because of my detailed describing and maturity. I also think from others perspective which lets me answer questions more specific.

○ Some evidence of me doing this is me volunteering to answer questions in class and often my teacher would let the class discuss a certain topic for a couple minutes and I always communicate specifically and thoughtfully.

Personal Awareness & Responsibility Profile

○ I can imagine and work toward change in myself and the world. I realize my struggles and can work towards improvements in myself. I used the feedback from my peers on paragraphs and essays that I have written and improved my writing by writing more than 25 English quizzes on my struggles. I also wrote a letter to Apple on improvements I suggest them to make. And I improved my English skills by seeking help from my English teacher.

Thank you
