Group Members and Contact Info

Goals

Please read over the following goals and keep them in mind as you complete your Action Pack.

When you finish this, you will do a SELF EVALUATION to measure how much you have gained in each area below.

Inquiry:

I can work with others to take a hands-on, minds-on, research-based approach to developing my knowledge and considering solutions to sustainability problems.

Creative/Critical Thinking:

I can learn a lot about something, consider different points of view, and generate new ideas that will influence how I think and act in the future.

Communication:

I can talk with others about my area of interest, consider their points of view, use digital media to gain knowledge, and deliver an interesting presentation on my topic.

Personal & Social Responsibility:

I know what my own values are and they help me make wise choices for the health and well being of myself, my community and my world.

Glossary

Below are some key terms you will need to understand as you explore the inquiry of this Action Pack. They will appear in ***bold italic*** in your Action Pack. The simple definitions below are provided for ease of reference.

Economic Impacts	Any change to the wealth and resources of a country or region, community or person. Often referred to in terms of the production and consumption of goods and services.
Ecosystem	A community of plants, animals and other organisms and all the interacting parts of their environment (air, water, soil, etc) that live, feed, reproduce and work together as a system.
Environmental Impacts	Any change to the living and non-living natural surroundings or conditions in which a person, animal or plant lives and interacts together. These impacts can be negative or beneficial, and can be created by an industry, project or Individual.
E-waste	Electronic waste such as discarded computers, monitors, phones etc.
Family	For the purposes of this Action Pack, family will be considered the group of people that you are living with.
Government	A system or organization that exercises authority and performs functions for the people of a designated country, province or local community.
Natural Resources	Materials provided by the Earth, such as minerals, forests, water, and fertile land that can be used for life to continue and by humans for economic gain.
Social Impacts	The effect of an activity on the social well being of the people in a community (such as wealth, health, education level, employment rate, and community values)
Sustainability	Meeting the environmental, social, and economic needs of the present without affecting the ability of future generations to meet their needs.
Upcycle	To convert old or discarded items into something useful.

1. MY WORLD VIEW

A 'world view' is how you see the world. We all have different world views, depending upon our cultural background, our life experiences and personal values. Our world view changes as we gain more knowledge and experience and consider other points of view.

Please complete the **WORLD VIEW & VALUES SURVEYS** BEFORE and AFTER completing this Action Pack.

Aboriginal wisdom presents another world view and values to consider.

“Take nothing from this Mother Earth except what you need and leave the land as well and as healthy as you found it.”

~Arapaho teaching

2. MY ACTIONS

Our actions are directly related to our world view. We often see shifts in our actions as our knowledge about topics grows. You will be asked to take action through-out this project to try out what it is like to change habits.

Complete 6.1 in your ACTION SURVEY on page B4.12 of this Action Pack BEFORE completing anything else in your Action Pack. Indicate which actions you already do by giving yourself points in Column A. **Only complete Column A at this time.**

DURING your Action Pack inquiry you will be asked to choose different Actions to try out and tick off your choices in Column B. Make sure that you have completed at least one Personal action and one action from any of the other categories before completing your Action Pack. But don't do that now – that's for later.

AFTER you have completed the entire Action Pack you will complete Column C, but don't do that now either! Just focus on filling out Column A at this time.

Name: _____ Course: _____ Date: _____

3. GLOBAL RESEARCH

Important information on this topic has been pre-researched for you. Register online by inserting the 6-digit 'class code' number that your teacher will provide to complete the url below:

www.bethechangeearthalliance.org/user/register?classcode=_____

Then check out the websites and videos on this issue here:

www.bethechangeearthalliance.org/SLS

User Name: _____ Password: _____

Make notes on interesting and important information for the Critical Thinking questions in Section 5 and the Presentation you will be making in Section 7. Discuss and compare different perspectives with other members of your group.

Research Questions

Based on what you have learned in your research, answer the following questions. Group discussions are encouraged but answers to the research questions are to be written independently. To avoid plagiarism, your answers must be in your own words. Please list the links you used to answer your questions.

- 3.1 List 3 global environmental issues that recycling positively impacts.

Did you know...?

Recycling is often not the best option. Most of our recyclables get shipped to poorer countries to be processed. **REDUCE & REUSE FIRST!**

~ RCBC

Link(s):

- 3.2 Do our materials always get recycled locally? Give two examples of where our recycling travels and what happens to it.

Link(s):

3.3 Describe how the e-waste that is sent to West Africa and Asia is dealt with. Include any social, health, or environmental issues that may be related to this process.

Link(s):

3.4 Recycling is sometimes divided into **upcycling** and downcycling. How do they differ? Give an example of each.

Link(s):

Taking Action

Choose ONE or MORE actions from your **ACTION SURVEY** in the back of your Action Pack and do the action(s) now. Choose something that you are not already doing or increase an action that you have done occasionally to become a regular practice.

Make a check mark in **Column B** beside the action you will be taking and record it below.

My chosen action is: _____

I will complete it by: _____

Name: _____ Course: _____ Date: _____

4. LOCAL ACTIVITY

How much can be reused or recycled in your home?

Much of what we throw away is actually recyclable or re-usable. Some recycling is picked up by the municipal recycling program; however many other plastics and electronics can be recycled by other means.

With your team-mates, collect all plastics and old electronics in your homes that were going to be thrown away or recycled.

Measure, photo document or actually bring in the waste you have amassed to show the class.

Find organizations that might take donated items (such as Free Geek) or a way for someone to reuse or **upcycle** these items. Or arrange for them to be recycled at a specialized facility (such as: Emterra, Urban Impact, Pacific Mobile Depots, WCS Recycling or Westcoast Plastic Recycling).

Record your findings in the RESEARCH CHART. Focus on the items you would not have recycled or donated before doing this research.

Research Chart (use note paper if more space is needed)

TYPE OF ITEM & amount of items	Donated	Re-USED (Describe How)	Blue Bin Recycling	Depot Recycling	Garbage
Example: Bubble wrap, cell phone, etc.					
1.					
2.					
3.					
4.					
5.					
6.					
7.					
8.					

So What?

4.2 What are the similarities and differences you found from comparing your activity results to others in your group?

4.3 What are some conclusions or observations you gained from this Activity?

Taking Action

Choose ONE or MORE actions from your **ACTION SURVEY** in the back of your Action Pack and do the action(s) now. Choose something that you are not already doing or increase an action that you have done occasionally to become a regular practice.

Make a check mark in **Column B** beside the action you will be taking and record it below.

My chosen action is: _____

I will complete it by: _____

Name: _____ Course: _____ Date: _____

5. CRITICAL THINKING

Global *sustainability* issues are complex, and considering different points of view can give us a stronger understanding in order to change for the better.

Critical Reflections

To avoid plagiarism, write your answers IN YOUR OWN WORDS.

5.1 Some would say that our consumer behavior has created a throw-away mentality. Does recycling allow us to continue to over-consume by providing the comfort that these items won't have as big of an environmental impact? Discuss.

5.2 Can recycling solve our waste problems or is it only part of the solution? Why or why not?

5.3 **STAKEHOLDERS** are individuals or groups (companies, communities, etc) who have concerns or could be impacted by an issue. Below is a list of stakeholders and environments that could experience *environmental, social* or *economic impacts* if we all recycled and upcycled the products we consume. Write down two or three concerns or impacts for each stakeholder(s).

Stakeholder(s) / Environments	Concerns / Impacts
1. Myself, my <i>family</i> & my Community	
2. The Natural World (Animals, Plants, <i>Ecosystems</i> and planetary life-support systems)	
3. Companies that use, sell and buy natural resources	
4. People and Companies that produce, distribute and sell new consumer goods	
5. People and companies that upcycle, sell and buy re-used consumer goods.	
6. Government	
7. Other	

Name: _____ Course: _____ Date: _____

Costs & Benefits

What if I was to recycle and upcycle every consumer good I purchased?

5.4 What would I need to do to take this action (e.g. commitment, time, something I'd need to stop doing, asking people to support me, taking responsibility, shifting comfort zones, etc.)? List at least 3 specific examples.

1.

2.

3.

5.5 What would the benefits be?

1. To me, personally (health, knowledge, values, etc.)

2. Environmentally (locally to globally) put in examples?

3. Socially (who may be impacted by this?)

4. Economically (money or resources saved or spent)

5.6 If I chose NOT to recycle and upcycle goods, what would the ***environmental, social*** and ***economic impacts*** be?

Name: _____ Course: _____ Date: _____

6. ACTION SURVEY

Our actions are directly related to our world view.

Complete the following ACTION SURVEY step by step.

6.1 **BEFORE** starting your Action Pack, indicate which actions you already do by giving yourself

<i># of points</i>		<i>If this statement is true for you or not</i>
0 points	=	Not true
1 point	=	Sometimes true
2 points	=	I have done this (not something one does regularly)
3 points	=	True most of the time

points in COLUMN A. Add these up in the Total for COLUMN A

6.2 **DURING** your Action Pack inquiry, set your goals and tick off the Actions you intend to take in COLUMN B... and then do them! IF you have already done all of the suggested actions, think of a new action, get it approved by your teacher and write it into the last open space.

Action Survey

	<i>What Actions have I taken before?</i> <i>What Actions will I start taking?</i>	A <i>Done before Action Pack</i>	B <i>I intend to do this Action ✓</i>	C <i>I have done these Actions</i>
Personal Actions	1. I have researched what can be recycled in my city and checked any time I'm uncertain until I know it.			
	2. I have put every recyclable item in the recycling instead of the garbage for two weeks.			
	3. I researched and set up a composting system at home.			
	4. I have tried to upcycle, recycle or donate everything I use before throwing it away.			
	5. I have organized a trip to the depot to recycle items that can't be recycled in curbside bins.			

Household Actions	6. I have done a home audit with my family on how we can cut back on our garbage and waste.			
	7. I set up a user-friendly recycling system in my home, designating items for curbside pick-up, and for taking to the depot.			
	8. I collected all items I do not recycle yet can be recycled, such as electronics and batteries and found out where I can recycle them.			
	9. I have taught my <i>family</i> how to properly recycle.			
School Actions	9. I have researched the recycling system at my school.			
	10. I have improved the basic recycling system at my school (with better signage etc.).			
	11. I organized a pick-up for items that can't be blue bin recycled, such as paints, electronics, and batteries.			
Community Actions	12. I researched and supported laws that will stop shipping recyclables to developing countries.			
	13. I encouraged a friend to join me in recycling and upcycling all of the products we use for one month.			
	14. I found out what government department regulates this issue and which elected politician is responsible for this department.			
	15. I wrote a letter to the department staff and/or to the politician stating the change that I think is appropriate.			
	16. My customized and related action (teacher approved): _____			
	What Actions have I taken?	A Before		C After
	Totals:			
		Starting Points Sustainability		Total Points Sustainability

Points for Sustainability

6.3 **AFTER** completing your Action Pack, fill in COLUMN C by giving yourself points for all the actions you are now taking. Add up the total of COLUMN C to see your **TOTAL POINTS FOR SUSTAINABILITY**.

5-15	This is a good place to start! And you have lots of choices for actions to increase your score
16-31	You are well on your way to creating healthy, sustainable habits!
32 or more	WOW, Superstar! You are here to inspire others. Lead on!

Points for Change

6.4 **CHANGING** our habits is a big accomplishment! As we increase our awareness we will see the impact of each choice we make and even more ways to 'be the change'. To give yourself points for trying new actions and being willing to change old habits, subtract the total of COLUMN A from the total of COLUMN C to get your total **POINTS FOR CHANGE**.

Total Column C: _____ - **Total Column A:** _____ = _____ **TOTAL POINTS FOR CHANGE**

3-6	Way to go – you've overcome the hardest part to change – STARTING! Keep it up!
7-15	Well done – keep consistent with your changes to create new habits.
16 or more	Way to be a CHANGE AGENT! Check out other Action Packs for more ideas

Reflection on Taking Action

Answer these questions after completing your Action Pack (use more paper as needed)

6.5 What was rewarding about making a commitment to action and changing my behaviour?

6.6 What was challenging?

7. PRESENTING YOUR EXPERIENCE AND KNOWLEDGE

Your final Action Pack assignment is to give a presentation to your class summarizing your thoughts on the Inquiry you did in this Action Pack. This is your chance to share what you have learned and invite your peers to take action!

Presentation length: 5 - 15 min.

See ideas for your presentation below. Ask your teacher for further details.

Make sure your presentation includes:

1. **I** Inquiry Process

- State the Inquiry question that you explored. Is this an important question we all need to be asking ourselves?
- List the top 3 most interesting facts that you learned in your research.
- Share the experience and results of your local activity

2. **T** Critical Thinking

- Name some key *stakeholders* or *ecosystems* and their concerns or interests.
- List some ways we can approach this issue more sustainably (both industry and personal).
- Share new ideas or conclusions you gained from completing the Action Pack.

3. **PS** Taking Action for Personal & Social Responsibility

- What actions did you take?
- What was it like to take personal action?
- Share your personal experience exploring this topic, inspire others to take action.
- Suggest ways your classmates can take action.

4. **C** Creative Communication

- Engage with your audience; make eye contact, don't read off a piece of paper the entire time, and project your voice.
- Be creative; how can you make learning about this topic fun and interesting? Consider the different presentation formats below.
- Share personal stories that deliver key points.
- Be passionate, persuasive and creative.

Creative Format Options

1. **A VERBAL TESTIMONIAL** Acting as a stakeholder (person, community, animal, river, etc) you tell your personal story about how important this topic is to you and how it can affect your life, positively and negatively. You could do it like a talk show where one interviews the other about your experience.
2. **GRAPHIC DEPICTION** Drawings that are labeled and explain the information you learned in the research. This could be pictures, images, a storyboard, timeline, and includes how you will make changes in your life.
3. **MOCK DEBATE** You and your partner present two points of view, or two stakeholders, showing the facts that support both sides in the issue.
4. **PAINTING OR COLLAGE** An artistic representation of what you learned in the research and how you will make changes in your life.
5. **MOCK NEWSCAST** You are a TV journalist on the scene of an environmental situation and you are interviewing both sides of the issue. For example, trees being cut down, industry's waste going into a river, protesters with signs at a government office.
6. **NEWSPAPER** Create a newspaper page with various articles about both sides of the issue. You may include a cartoon that is relevant, a letter to the editor about the issue and columns with the scientific facts. Include what changes are needed to help with this issue in the world.
7. **POEM/PROSE/SONG/RAP** Present a piece of creative writing that expresses personal feelings and facts together around your issue/topic.
8. **SKIT** Act out a script to demonstrate your understanding of the issue/topic. Explain the stakeholders on both side of the issue and how you will change your life to help.
9. **WEBSITE** Create a well designed website that clearly leads the reader through the major issues, facts and opinions on this topic.
10. **POWERPOINT/PREZI** Create a visual presentation with strong images, graphs, even video, that complements and strengthens your verbal presentation. Remember images – not words!
11. **VIDEO** Create a video that describes the key points of the issue in a compelling way. This video can be animation.

8. SELF EVALUATION

While helping you learn about a sustainability topic, the goal of this Action Pack was to help you increase your ability in a number of life skills.

By completing the self evaluation below you can acknowledge the areas that you have developed and the areas that need more work. Please keep in mind that your abilities will continue to develop over the years.

Please rate yourself from 1 – 5 for each of the following statements.

1 = I did not develop this skill with this project and I do not feel confident in this life skill.

2 = I developed this skill a little, but I need to do more work in this area.

3 = I developed this skill a fair bit, and I see how I could use it in the future.

4 = I developed this skill a lot and I am quite confident about using this skill in the future.

5 = This goal was fully met... I actively use this life skill in many areas of my life.
