

Peer Tutoring 11 – Planning Log

Please review the questions below with your classroom support teacher and record the answers in the appropriate spaces. This will allow you to develop a better idea of the direction of the course and the ways in which you can support the students you will be working with.

What is the class currently working on? What are upcoming topics/content that I can prepare for?

What are some common reasons for which students struggle in this course?

In what ways could I best support students for the upcoming units/assignments?

What are some concepts or resources I could review to prepare for my tutoring?

Who are some students you feel you have connected with or supported?

According to your classroom teacher, what makes a great tutor?
