1. Scenario:

You are **Gerry Sun Raven**, a member of Cranbrook High School's hiking club. As a leader of the Alpine Fir Trail hike, you spoke with Ms. Varga, chief park warden of Glacier National Park, and have information to give to your members for the upcoming three-day hike in May.

Task:

Read the information below and create an effective handout identifying the equipment required by the club members going on the May hike.

Information:

You are speaking with Ms. Varga, chief park warden, Glacier National Park, about your hike.

Gerry: "Ms. Varga, our club will be hiking the Alpine Fir Trail for three days in May. What should hikers bring with them?"

Ms. Varga: "Each hiker should bring a backpack containing a sleeping bag, cooking gear, and rain gear. Remember that it sometimes rains in May."

Gerry: "Ok. And what sort of safety supplies should we have?"

Ms. Varga: "Bring a compass for sure, mosquito repellent, matches, a small axe, and a hunting knife. Of course, you'll need food for four days, but you can get by with just a one-day supply of water since creek water can be sterilized by boiling it."

Gerry: "Anything else we should know?"

Ms. Varga: "The terrain is going to be rocky, so be sure to wear hiking boots and carry a cell phone. I recommend bringing a foamy, three pairs of socks, two pairs of slacks, and two shirts."

Gerry: "Thanks, Ms. Varga. That's helpful information."

Ms. Varga: "I hope you and the group have a great hike."
