 <input type="checkbox"/> How does the artifact you selected demonstrate strengths & growth in the communication competency? In what ways might you further develop your communication competency?	Self-Reflection Describe how the artifact you selected shows your strengths & growth in specific core competencies. The prompt questions on the left - or other self-assessment activities you may have done - may guide your reflection process.
 <input checked="" type="checkbox"/> How does the artifact you selected demonstrate strengths & growth in the thinking competencies? In what ways might you further develop your thinking competencies?	What helps you get new ideas? What helped me get new ideas for my English Grammar Video Concept Project was researching the topic that I had to explain and seeing how people before me did it. My grammatical concept that I was meant to explain was commas, parallel structure, and semi colons vs. colons. Since I did this project with a partner, we were able to find many sources on which there was information about the concepts, which helped us get ways of presenting our work. In the end, we chose to demonstrate what we have learned through images, by placing images into our Powerpoint slides, and giving examples in which there were fun images for the class to look at.
 <input type="checkbox"/> How does the artifact you selected demonstrate strengths & growth in the personal & social competencies? In what ways might you further develop your personal & social competencies?	How does your artifact tie in with what you have learned before? Most of the concepts were on things that I have learned a little bit about in elementary school, but this project really helped me learn a little more about those concepts by focusing purely on them and not on other grammatical concepts. Also, since I have learned these concepts before, it was much easier to understand them for a second time and to explain them to the class in a much less complex way.
