

Instructor, CNC Machinist Technician / CNC Machining and Advanced Technology (Term)

Electrical, Mechanical and Manufacturing

Applicants are to clearly demonstrate how they satisfy the selection criteria in their written submissions and must identify the competition number they are applying for in the subject line of the email.

This competition may be used to establish a 12 month eligibility list of qualified candidates for future vacancies.

DUTIES

Reporting to the Chair of the Electrical, Mechanical and Manufacturing department, the Instructor is required to deliver theory and practical training to students in the CNC Machinist Technician and CNC Machining & Advanced Technology programs. The incumbent is expected to develop and modify curriculum, conduct student assessment and counselling, supervise student practical labs, maintain lab and classroom equipment, maintain accurate program records, effectively maintain classroom activities and perform related duties as assigned.

REQUIRED QUALIFICATIONS

- Red Seal certification in Machinist / Tool and Die Maker; an equivalent combination of education and experience may be considered
- Significant industry related experience in CNC Programming and Manufacturing processes
- Significant industry experience in working with Computer Numerical Control (CNC) equipment
- Demonstrated ability in the operation of lab equipment of assigned courses of instruction
- Effective written and verbal communication skills
- Demonstrated leadership skills
- Ability to work independently as well as collaboratively in group settings
- Effective presentation skills with ability to present material to diverse groups with the use of appropriate technology
- Effective interpersonal skills
- Working Knowledge of Microsoft Office applications: Word, Excel, PowerPoint, Outlook
- Values Diversity, Equity, and Inclusion
- Commitment to lifelong learning

ASSETS

- Post-secondary Instructional experience
- Certificate in Adult Education (CAE) or Technical Vocational Diploma
- Experience in Computer-Aided Design (CAD)
- Experience working in a LEAN manufacturing model or environment
- Experience in fixture design
- Experience with online instruction and learning
- Ability to work remotely

CONDITIONS OF EMPLOYMENT

- Applicants must be legally entitled to work in Canada
- This position may be required to work evenings and/or weekends
- Instructors are required to complete the Teaching for Learning (TFL) in Applied Application program or have previously completed the Certificate in Adult Education (CAE)

Red River College is a leader in applied learning and innovation. Our talented team of employees is passionate about education, innovation and student success. We offer competitive salaries, extensive benefits and the opportunity for personal and professional growth in a rewarding career.

At Red River College we are committed to fostering an inclusive environment, where all employees and students feel valued, respected and supported. The College seeks to increase diversity among its community members and welcomes applications from women, Indigenous persons, racialized persons, persons with disabilities, persons of all sexual and gender identities and others who may contribute to the further diversification of ideas. All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.

Red River College is committed to providing accessible employment, and ensuring that our recruitment, assessment and selection process is barrier free. If a candidate requires accommodation during the hiring process, Human Resources Services will work with the individual to meet their needs. We thank all applicants for their interest, but only those selected for an interview will be contacted. For more information and other employment opportunities, visit rrc.ca/hr
